## EXCITING DASH ACROSS BRIDGE.

Little Girl Rescued From a Buggy In Mad Runaway.—W. H. Rollinson Thrown Out and Badly Shaken Up.

A seven year old girl in a buggy, attached to a runaway horse was the scene that confronted those in the vicinity of the South Bridge shortly after noon Tuesday. Had it not been for the heroic work of W. H. Rollinson, who ran out of the Aultman store just in time to grab the little girl from the buggy, she would probably have been thrown violently to the pavement. Joe Osborne caught the maddened horse. Very few people saw the commencement of the runaway, but the Daily News learns that the horse was standing in front of the residence of C. R. Oliver, on Pine street within a few hundred feet of the bridge, when Mr. and Mrs. W. H. Rollinson and two children got in, one an infant and the other seven years old. A bolt which held the shaft in position fell out, and the horse began to run at full tilt. Mrs. Rollinson jumped from the carriage with her infant, while the gentleman staid in, attempting to stop the animal. As the horse swung around the curve leading to the bridge, Mr. Rollinson was thrown out violently, receiving a cut on his hand and otherwise being badly shaken up. The little girl remained in the buggy until she was taken out, on the west side near the corner of Orange avenue and Beach street.

An enthusiastic meeting of some of the well known citizens took place Monday night, at which time the following ticket was slated:

For Aldermen—B. Shoemaker, C. L. Haine and A. L. Spangler.  
For Collector and Marshal—J. C. Butler.  
For Mayor—Geo. P. Johnson.  
For Clerk and Assessor—H. F. Thompson.

**A Poem for Today**  
**AULD LANG SYNE**  
By Robert Burns

ONLY the second and third stanzas of this world famous song were original with Robert Burns, although he retouched them all. In 1788 Burns sent a manuscript copy of a fragment in the strain of "Auld Lang Syne" to a friend at a distance, as appears in an old letter that was preserved, and in 1793 he gave to George Thompson, another friend, the words as they appear below, saying that they had never been in print nor even in manuscript until he took them down "from an old man's singing." Thompson set the words to an old Lowland melody entitled "I Pled a Lad at Michaelmas," and the air and the text as Burns delivered it have come down together from the olden time.

Should auld acquaintance be forgot,  
And never brought to mind?  
Should auld acquaintance be forgot,  
And days o' auld lang syne?

For auld lang syne, my dear;  
For auld lang syne,  
We'll tak a cup o' kindness yet  
For auld lang syne!

We two have run about the braes,  
And pu'd the golden dale,  
But we've wander'd monie a weary foot,  
Sin' auld lang syne.

We two have pu'd't the burn  
Frae morning sun till dine,  
But seas between us braid has roared  
Sin' auld lang syne.

And here's a hand, my trusty friend,  
And here's a hand o' mine,  
And we'll tak a right gude wille-  
waught  
For auld lang syne.

And surely ye'll be your pint stoup,  
And surely I'll be mine,  
And we'll tak a cup o' kindness yet  
For auld lang syne.

Interest Evincing in Neighboring Counties in the Building of Good Roads.  
St. Johns' Business League.

Each day brings fresh encouragement to those now earnestly advocating good roads in this county, says the St. Augustine Record. Some new advantage is brought forward daily by some party who heretofore has been silent on this question, and with the new advantage comes promise of hearty support of the movement towards constructing the road to the south border of the county. Not only are the residents of this county interested in the road, but many in neighboring counties are watching anxiously for the actual work to begin. Newspapers in nearby towns appreciating the value of the proposed road to this section do not hesitate to urge its construction. Fortunately our own people seem alive to the necessity of this road and are united in supporting the movement to build it.

Last week the St. Johns County Business Men's League was formed, having in view at the moment of organization the construction of a road to Ormond, the stretch in St. Johns county to be the task of the league and the remainder the work of the Volusia county authorities. That Volusia county will do its share of the work is fully guaranteed.

**The Congressional Library.**  
In its fine building the library of congress should be safe against destruction for many centuries. Fire has cost the world many of its greatest collections. It ruined the ancient Alexandrian library of the Ptolemies when the Christians sacked the temple of Serapis in the year 275. It cost the world thousands of ancient manuscripts when the Crusaders captured the city. Twice the library of congress has suffered by fire—first at the destruction of the capitol by the British in 1814 and again in 1861. In its present housing it is protected by every possible safeguard and erected in a development by the most expert of custodians. And with a sense of pride in which all Americans must share the nation has given to its foremost sculptors and artists the opportunity to enrich its walls with their work. It is a monument to American thought and learning, which must grow in value and significance with each year. —New York World.

**"Only Me."**  
There may be a world of pathos and even of rebuke in a very few words, and so the rather thoughtless wife of a contributor of ours discovered recently. She has two sweet little children, both girls, and, almost without knowing it, she made a pet and favorite of the younger and prettier child. "Sweet," as she called her, had every care and attention lavished upon her, and good natured neglect was more or less the portion of the elder.  
The mother was sitting in her bed room quietly reading recently when the soft patter of tiny feet sounded on the stairs.  
"Is that you, Sweet?" she called.  
"No, mamma," was the sad reply; "it isn't Sweet—it's only me."  
That pathetic little "Only me!" haunted the wife of our contributor for long, but a change has since marked her treatment of her eldest born.—London Tit-Bits.

**Something He Had Forgotten.**  
Small Boy—Mister, kin you change a ten dollar bill? Mister—No, sonny. That belongs strictly to my wife's share of the domestic duties. I might have been able to change one long ago, but I'm clean out o' practice now.

**An Awful Stab.**  
"And you call this chair unique? Why, it isn't any older than I am!"  
"Well, ma'am, that may be, but it's antique, all right!"—Houston Post.

**Exaggerated.**  
A publisher advertises: "The Wives of Henry VIII! Third thousand." Surely there is some exaggeration here. —Punch.

**North.—Spring Months Best.**

Quite a number of the tourists at the  
 various hotels who expected to leave to-  
 day for their northern homes, have de-  
 cided to postpone their departure from  
 Daytona until the weather moderates.  
 This morning a representative of this  
 paper, in his rounds, heard many ex-  
 pressions from visitors concerning the  
 weather, and how pleased they were to  
 know that they were escaping the cold  
 weather now prevailing in the North.

Southern winter travelers are begin-  
 ning to learn that it does not pay to re-  
 turn North too early in the spring. This  
 is especially applicable to those who  
 come South for health, as a warm day  
 in Florida does not mean that the same  
 conditions prevail in the North. One  
 might leave here with the temperature  
 uncomfortably warm, and run into the  
 opposite with cold elsewhere, and which  
 would entirely undo all of the benefits  
 derived from the balmy Florida climate.

There are no more pleasant months in  
 the year in Florida than March and  
 April and even May. This visitors are  
 learning, and it will be but a few years  
 before these months will be liberally  
 patronized.

Reports from up the coast points  
 show also that the hotels are well filled  
 and that the people are apparently in  
 no hurry to face the possibilities of a  
 freeze or blizzard in their home cities  
 and sections. This season, however, is  
 waning and it will be but a short time  
 now before we will have said au revoir  
 to the majority of those who have been  
 with us during the season of 1906.

**Mayor Greene Ill.**

The friends of Mayor E. W. Greene  
 will regret to learn that he is ill at his  
 home on Ridgewood avenue. Monday  
 night he was quite sick, but today his  
 condition is much improved. Dr. At-  
 wood is in attendance.

### DAYTONA AND ITS ATTRACTIONS.

DAYTONA is situated upon the west bank of the Halifax River at its fairest expanse and midway between its source at Bulow Bay and its outlet at Mosquito Inlet. It is in latitude 29, seventy-four miles from St. Augustine and one mile from the Atlantic Ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is upon what is known as high hammock land that was crowned by nature with a most royal growth of majestic forest trees, and among these trees is the town of to-day, with its beautiful cottages and well-graded walks and streets. The result is that all along the wide avenues that intersect the town are lovely live and water oaks and hickories, many of them draped with graceful festoons of the gray Spanish moss, that overarch the street and walks, and among these are interspersed tall tropical palmettos, glossy-leaved magnolias, fragrant bays and coral-berried holly, and many other varieties, while in many places the wild grape, the trumpet vine and the ampelepis climb and cling among the branches forming shady bowers and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the yachtsman and forms one of the town's greatest attractions.

The main avenues that run parallel with or intersect the river are all 100 feet wide, except Beach street, which is about sixty-five feet, but has a half-mile of open, beautiful water abutting upon its eastern side, where the salt waves ebb and flow and along and across which comes the cooling, invigorating and health-giving breezes from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, marled and shelled roads and streets, rendering it the

**Wheelman's Paradise**  
and added to these, but a mile away, are thirty miles of smooth, hard beach, that affords an unrivalled course for long-distance cycling and driving of automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

**The Beautiful Cottages**  
that have been erected during the past years and are being built are rendering Daytona as famous for its fine homes as for its beautiful river, trees and avenues, and they are adding greatly to its attractions.

Not the least of these attractions to those securing homes in the South, and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelties, an opera house, electric lights for street and house illumination, a good telephone system, ice factory, Lily Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

and iron, and holds sulphur in the shape of gas, which soon passes away. The Population of Daytona proper is about 1,800. Added to this is a suburban population on main shore and peninsula of about 1,000 at Kingston, Blake, Old Seabreeze or Goodall, Seabreeze and Silver Beach which are properly a part of the town and population.

**Daytona Beach**  
lies one mile east of the town. It is approached by three good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth, by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect as Daytona beach.

**Automobile Race Meet.**  
The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona-Ormond Beach is hard as unadorned, and an ideal stretch of thirty or more miles without a break makes it the natural racing ground for America.

At low tide the beach is bare for 300 feet and neither carriage wheel, bicycle or pedestrian can make a hardly visible imprint on the smooth and well-packed sand. It is no uncommon sight to see well-rigged bicycles speeding with the velocity of the wind before a stiff breeze along the smooth beach, thus affording the most exhilarating sport known to man. Besides these, miles of hard-shelled, palm-fringed boulevards bring the lovers of the wheel and vehicles into direct touch with the mainland over the broad bridges which span the splendid Halifax River.

The beach from the sandy bluffs to the lowest point at ebbside, measures about 500 feet, and the average depth of the wheel and vehicle is about two feet. A continuous gentle swell rolls in from the ocean from one to two feet in depth under normal conditions, making the beach an attractive and absolutely safe place for surf-bathing. Here the infant as well as the gray-haired veteran of many summers, can safely enjoy the luxury of a sea bath throughout the larger part of the year, while the strong and expert swimmer can venture out further to test his strength and skill in battling with the inexhaustible powers of the mighty ocean.

**The Peninsula**  
lying between river and ocean is one half mile wide, and is being rapidly improved, and there are many fine cottages and several good hotels, an opera house, two ocean piers, beach pavilion and a large casino.

**A Remarkable Feature**  
at Daytona has been the yearly improvement in the style and value of the buildings that are being erected here. Men of capital of the North and West have become awakened to its advantages for winter residences, and valuable lots are being purchased and costly houses, beautiful in design and finish, are being erected, and beautiful homes, the abodes of wealth and culture are multiplying. The famous (City Beautiful) and Council are settlements on the Ocean side of the peninsula across the Halifax River from Daytona.

At the foot of Ocean Boulevard, Seabreeze, a pier reaches 600 feet across the beach into the swelling surf of the ocean. This pier is a favorite resort of those who delight in the sport of fishing. The surf here abounds in trout, pompano, yellowtail, cavalla, whiting, drum, sheepshead and many other varieties of edible fish. During the fall season the famous sea bass affords royal sport, and it has been no uncommon occurrence to land a thousand pounds of this gamey fish in an afternoon. Individuals of these ranging from fifteen to thirty-five pounds in weight. Not only does the ocean offer this splendid sport but the Halifax River, only half a mile back of the ocean, is equally famous for its fine fishing and the varieties that abound in the ocean are present in the river.

Fishing and fishing good. For boat and guides and down may be had at reasonable prices.

### SEVERELY CUT AND BRUISED.

M. B. Aultman Meets With Painful Accident Monday Night Near the Peninsula Bridge.

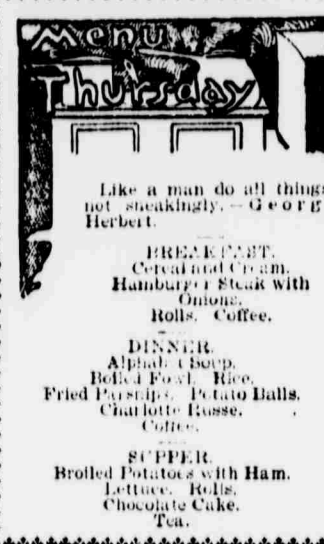

M. B. Aultman, the young merchant, is lying at The Cedars with his face severely lacerated, and his body badly bruised, as the result of running into the railing on the south side of the road leading from the Peninsula Bridge to Beach Street. Mr. Aultman saw an automobile rapidly approaching, and he knew that he would have to either run into the railing or be run over by the machine. He chose the former, and as he himself was riding a bicycle at a fair clip, the force with which he hit the sharp boards which form the railing, made the bruises all the more severe. Mr. Aultman gathered himself together and waited by the roadside for a passing carriage to take him to his hotel. There physicians were immediately summoned, and the wounds dressed. Though the wounds are quite painful, and his mouth, cheek and nose are badly cut, it is thought that they will readily heal, and that he will not be disgraced.

The automobile did not stop, and it is reasonable to suppose that they were unaware of the accident. Mr. Aultman could not tell who the car belonged to or who was the driver.

Among the arrivals from the south Tuesday afternoon were Mrs. A. D. Champion, Miss Champion, Mr. and Mrs. E. A. Conkling of Cincinnati; Mr. and Mrs. C. W. Brewer and Miss Grace Brewer, of Utica, N. Y. They secured accommodations at The Clarendon.

### Careless Driving.

There are several young ladies who drive automobiles in the city, and persist in sprinting their machines down the principal thoroughfares at a speed of twenty to thirty miles an hour.

While no serious automobile accidents have occurred this season it will be well for these parties to run their cars in town at a slower gait and keep within the limit of the law.

Numerous parties have recently remarked as to the daring manner in which some of these automobilists drive and if they do not stop their racing steps should be taken to see that they are compelled to do so.
